When do we start going to **war with our country**, and why? What did it mean to go to war from WWI to WWII and beyond, in Italy, before and after Mussolini?

Italy's leading actor **Fabrizio Gifuni** takes these questions on board as he presents his award-winning show **Gadda Goes to War (Ubu Prize for Best Actor and Best Show)** in this unique lecture-performance addressed to all those with a passion for **civic commitment, political theatre** and **better worlds**.

The show had a sold-out **British premiere** at the Traverse Theatre, Edinburgh, as part of the 2012 edition of the **Edinburgh Gadda Prize**.
